Euroclean GD930

Canister Vacuum

Advance

FACT SHEET

The Euroclean GD930 canister vacuum is quite simply our biggest, most powerful and best canister vacuum. It features our largest dust bag (4 gallons) so that you can vacuum longer without having to stop and change bags. Both standard and high filtration bags are offered.

The Euroclean GD930 is available with an oversized true DOP MIL-STD-282 H.E.P.A. filter mounted before the motor. The huge surface area results in less restricted air flow to maximize vacuum performance no matter what type of material is being vacuumed. With 2,880 square inches of filter media, the filter can be used longer before it needs to be replaced.

Equipped with a 1,000 hour, 1.25 hp 1,000 Watt motor, the Euroclean GD930 is designed to deliver high performance day in and day out in harsh industrial and commercial environments. The Euroclean GD930 has more shear power in terms of waterlift and air flow than any other Advance canister vacuum.

The Euroclean GD930 is easy to use as well. A low center of gravity and three point stance with two fixed rear wheels provides exceptional tracking. The round steel body is designed to take years of abuse on the job site. The lightweight aluminum wand is tough yet easier to use for extended periods overhead with less fatigue. The 6 foot hose and 50 foot power cord provides a huge cleaning radius.

STANDARD ACCESSORIES INCLUDE

- 12 inch combination floor tool for hard and soft floors
- 6 foot crush proof hose
- Aluminum two piece tube
- Combination dust brush upholstery tool
- Crevice tool

OPTIONAL ACCESSORY

- H.E.P.A. filtration to remove 99.97% of all particles of 0.3 micron size or larger. With this option the Euroclean GD930 meets the highest standards in healthcare and education facilities.

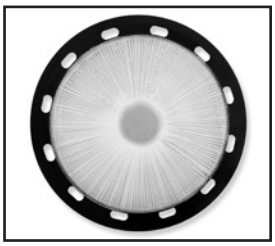
TYPICAL APPLICATIONS INCLUDE

- Offices
- Schools
- Hotels / Motels
- Healthcare Centers
- Retail Outlets
- Restaurants

Advance
Euroclean GD930
Canister Vacuum

Standard tools include a combination brush/nozzle, 6 foot suction hose, dual mode floor tool, two piece wand, and crevice tool.

Three rubberized wheels provide quiet and exceptional tracking over hard and soft floors.



The Euroclean GD930 is available with H.E.P.A. filtration which removes 99.97% of all particles of 0.3 micron size or larger.

4 gallon (15 L) dust collection bag wraps around motor assembly to cut down noise. Motor has thermal overload protection.

Chrome steel plated tank for exceptional durability.

Defining Cleaning Innovation…

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.
- Maintain peak performance with Nilfisk Parts.

Technical Specifications

Model	**Euroclean GD930**
Motor	1,000 W, 1.25 hp, 115 V, 60 cycle
Dust Bag	1,132.5 in^3 (0.5 bu.) circular disposable paper dust bag
Wand Assembly	Two-section aluminum wand
Hose	6 ft (2 m) x 1.25 in (3.17 cm) diameter with curved easy-grip handle tube
Tank	Chrome-plated steel
Sealed Waterlift	89 in (226 cm)
Airflow	67 cfm
Base and Cover	Injection-molded plastic
Bumper	Full wraparound non-marking vinyl
Cord	35 ft (10.6 m) 18-3 SJT with molded plug
Wheels	Two 4 in (10.2 cm) dia. fixed rear wheels; one 2 in (5.1 cm) dia. front swivel caster
Noise Level	66 dB A
Standard Accessories	Round dust brush, crevice tool, 12 inch (30.5 cm) combination carpet/hard-surface floor tool, six filter bags
Dimensions	13 in (33.0 cm) height x 15 in (38.1 cm) width x 17.5 in (44.4 cm) length
Weight	17.5 lb (7.9 kg)
Euroclean GD930	Conventional 2,880 in^2 filter and diffused exhaust. Large volume commercial grade vacuum for fast, effective cleaning.
Optional H.E.P.A.	High Efficiency Particulate Air Filter H.E.P.A. filter is designed to remove 99.97% dust particles 0.3 microns and larger which meets federal standards and accepted H.E.P.A. filtration levels.
Part Number	9055314010
